

# MaRRS Skill-Building Programs: Unleashing Academic Excellence

*Igniting Passion for Numbers and Mastery of Words*

## 1. MaRRS Xpress Math Challenge

**"Speed, Accuracy, and Logical Prowess"**

The MaRRS Xpress Math Challenge is a premier mathematics competition designed to move beyond rote memorisation. It focuses on sharpening a student's mental computing ability, logical reasoning, and speed.

- **Objective:** To cultivate a lifelong passion for numbers and boost cognitive confidence.
- **The Journey:**
  - **School Level:** A written round consisting of 120 objective-type questions to be completed in 60 minutes.
  - **National Prelims:** A combination of written and oral rounds that test both calculation and speed.
  - **National Finals:** Focuses on mental computation through oral rounds and—for higher categories—a research-based project presentation.
  -
- **Key Benefits:** Improves time management, enhances problem-solving skills, and prepares students for future competitive entrance exams.

## 2. MaRRS Maze of Words

### "Navigating the Nuances of the English Language"

MaRRS Maze of Words is an initiative designed to explore the depths of English communication. It challenges students to go beyond basic vocabulary and master the "maze" of grammar, syntax, and word structure.

- **Objective:** To encourage progressive learning and improve daily communication skills through a multi-faceted approach to language.
- **Unique Rounds:**
  - **Words in a Word:** Creating multiple words from a single base word.
  - **Russian Doll:** Identifying a word hidden within another word based on specific clues.
  - **Word Morph:** Transforming words by adding or deleting single letters.
  - **Doublets:** A word-bridge challenge where students change one letter at a time to reach a target word.
- **Key Benefits:** Sharpens comprehension, enhances phonemic awareness, and builds a sophisticated vocabulary.

## 3. MaRRS Word Chase

### "The Ultimate Pursuit of Vocabulary"

MaRRS Word Chase is an engaging, fast-paced challenge that focuses on the rapid retrieval of vocabulary and word association. It is designed to be a high-energy competition that tests a student's agility with the English language.

- **Objective:** To build "word-fluency"—the ability to quickly identify, retrieve, and apply words in a variety of contexts.
- **The Format:**
  - **The Grid Challenge:** Students find as many words as possible within a grid of letters under strict time constraints.
  - **Syntactic Awareness:** Identifying correct parts of speech and word usage in a competitive, rapid-fire environment.
- **Key Benefits:** Enhances quick-thinking abilities, expands active vocabulary (words the child actually uses, not just knows), and makes language learning feel like an exciting sport.

## Program Comparison at a Glance

Program	Core Focus	Primary Skill Developed
<b>Xpress Math</b>	Numeracy & Logic	Mental Calculation & Speed
<b>Maze of Words</b>	Language Depth	Grammar, Puzzles & Word Structure
<b>Word Chase</b>	Vocabulary Agility	Rapid Retrieval & Pattern Recognition

## How to Participate

Participation is open to school students across various grade categories.

1. **Register:** Sign up through your participating school or the official MaRRS portal.
2. **Prepare:** Utilise the specialised MaRRS workbooks and online practice modules.
3. **Compete:** Progress from School to Inter-School, State, and National levels.
